

# Highways

## Deepsid Deejays

Well, I've been searching uphill down and around and 'round

Life's lonely highway

Just traveling 'round, nothing to be found

Now I know, yes I know that leaving you was wrongSo I'm coming on home, won't be long

Now if I bring you back the love I had

Would you see it throughWell, I've been searching uphill down and around and 'round

Life's lonely highway

Just traveling 'round, nothing to be found

Now I know, yes I know that leaving you was wrongSo I'm coming on home baby, won't be long

If I bring you back the love I had

Would you see it through
