

# Let Me Imagine You

Robert Forster

There was silence  
things we didn't know  
There was romance  
where I couldn't go Please don't tell me  
let me dream and guess  
Please don't tell me  
let me dream and guess I missed the ballet you directed  
Was it a big success?  
Let my imagination move those figures around my head. Are you in Paris, deep in trouble. Yes?  
Is the memoir finished  
let me dream and guess I heard you went shopping  
And bought such beautiful things  
Let me get my calculator and add up the cost of all those things.  
let me imagine you  
I find it sweeter  
let me imagine you
