

# Collide (Afrojack Remix)

Leona Lewis

I'll pick you up when you're down  
Be there when no one's around  
When you're in unfamiliar places  
Count on me through life's changes I'm in tune with how you feel  
Everything bout this is real  
When you're in unfamiliar places  
Count on me through life's changes You're all I want, yeah yeah  
I know you're the one, yeah  
You're all I want, yeah  
I know you're the one, yeah Crash into me  
At full speed  
Crash into me  
We can collide, we can collide Crash into me  
At full speed  
We can collide, we can collide  
We can collide, we can collide Crash into me  
We can collide, we can collide  
We can collide, we can collide When you're in unfamiliar places  
Count on me through life's changes Know that you're never alone  
In me you can find a home  
When you're in unfamiliar places  
Count on me through life's changes You're all I want, yeah (yeah)  
You're all I want (oh), yeah (yeah yeah)  
You're all I want, yeah (you are the one)  
I know you're the one, yeah (you are) Crash into me  
At full speed  
We can collide, we can collide  
We can collide, we can collide Crash into me  
We can collide, we can collide  
We can collide, we can collide We can collide, we can collide  
We can collide, we can collide
