

# Aint Nothing But Love

Vivian Green

Just seen your eyes and I can't believe just what I found  
Love that a kiss can just sweep my feet off the ground  
And so many ways that I wanna love you everyday  
And so many things that I want to learn, show me your way  
Shoulda known, when I looked into those eyes that I  
was going to be free  
From the bondage of those who never loved me  
And I shoulda known when you simply touched my hand  
That you would understand all of my wants and all of my needs  
You were sent alone to love me  
Ain't nothing but love  
And it's getting sweeter and sweeter  
Like heaven on earth  
Won't you just give me more and more?  
Ain't nothing but love  
And it's getting sweeter and sweeter  
Like heaven on earth  
Won't you just give me more and more?  
You love me baby, winter, spring, summer and fall  
And it's like I'm blinded, I see no one but you at all  
Just the sound of your voice gives me chills up my spine yea  
And it just thrill me when you love me all night  
Your lips speak to me in a language I never knew  
But oh how I understand your heart when it feels the love from you  
Ain't nothing but love  
And it's getting sweeter and sweeter  
Like heaven on earth  
Won't you just give me more and more?  
Ain't nothing but love  
And it's getting sweeter and sweeter  
Like heaven on earth  
Won't you just give me more and more?  
Just seen your eyes and I can't believe just what I found  
Love that a kiss can just sweep my feet off the ground  
And so many ways that I wanna love you everyday  
And so many things that I want to learn, show me your way
