Elephant Parade

Our time is up
The leaves are turning grey
Your smile is gone
And all the wounds are frayed
But if you come with me
Through the ocean's stream
All our memories
Will come back
You'll see

I know we had to go
But maybe it's time that we go home
I see what had to be
Baby it's not easy but let's go home
Baby it's not easy but let's go home

I know we had to go
But maybe it's time that we go home
I see what had to be
Baby it's not easy but let's go home
Baby it's not easy but let's go home

Come with me
Come with me
Come with me
Come with me
