

Underneath It All

Nine Inch Nails

All I do, I can still feel you
All I do, I can still feel you
All I do, I can still feel you
All I do, I can still feel you All I do, I can still feel you
Numb all through, I can still feel you
Hear your call underneath it all
Kill my brain yet you still remain Crucified after all I've died
After all I've tried you are still inside All I do, I can still feel you
All I do, I can still feel you
All I do, I can still feel you
All I do, I can still feel you
