

Charge Me Up

Jennifer Lopez

We're running out of juice, it's a
Matter of seconds now
I'm shutting down
Desperate when I mo-ove
My battery is screaming loud
I'm shutting down
It's an addiction, I
I, I want more more more
Give me some boom boom boom
Give me some oh oh oh
Keeps up my engine with
A hundred thousand volts
Ignite the room room room
I'm going loco oh oh oh Throw me down like lightning volts
Take control of my body every single bone
I come alive when you charge me up baby
Charge me up baby charge me up once and again
I'm dancing in the danger zone
So wired up but I just want another dose
I come alive when you charge me up baby
Charge me up baby charge me up once and again (Oh oh oh) charge me up once and again
(Oh oh oh) charge me up once and again This is my disease my predatory instinct call
I'm bout' to fall
Shock me fill me up up
Proceed I'll give you all you want
I'm bout to fall
It's an addiction, I
I, I want more more more
Give me some boom boom boom
Give me some oh oh oh
Keeps up my engine with
A hundred thousand volts
Ignite the room room room
I'm going loco oh oh oh Throw me down like lightning volts
Take control of my body every single bone
I come alive when you charge me up baby
Charge me up baby charge me up once and again
I'm dancing in the danger zone
So wired up but I just want another dose

I come alive when you charge me up baby
Charge me up baby charge me up once and again(Oh oh oh) charge me up once and again
(Oh oh oh) charge me up once and againRunning real low, I'm moving in slow mo
Charge me up, shift me up, I need a reloadRunning real low, I'm moving in slow mo
Charge me up, shift me up, I need a reloadThrow me down like lightning volts
Take control of my body every single bone
I come alive when you charge me up baby
Charge me up baby charge me up once and again
I'm dancing in the danger zone
So wired up but I just want another dose
I come alive when you charge me up baby
Charge me up baby charge me up once and again(Oh oh oh) charge me up once and again
(Oh oh oh) charge me up once and again(Oh oh oh) charge me up once and again
(Oh oh oh) charge me up once and again
