My Nature

Rival Sons

Daydreamin
On a whim when I get the time
I just wanna show you
How good it is to have you
Put your body next to mineDaydreamin
When I'm working on a deadline
Looking at the spreadsheet
Thinkin bout the bedsheets baby
Just another man tryin to make a dimeOh, this is my nature
Right now I just need some release
Rh yeah, I need you to nurture
I got to know that you still believe
Do you still believe?Daydreamin
About all the times we used to have
We used to lay in bed all day
Now we sit and watch our kids play
Girl you helped make me who I amOh, this is my nature
right now I just need some release
oh yeah, I need you to nurture
I got to know that you still believe???
I swear it's gonna happen while we're still young
Together we're gonna conquer?
You got the patience babe, I got the willOh, this is my nature
Right now I just need some release
Oh yeah, I need you to nurture
I got to know that you still believeOh yeah, this is my nature
Right now I need relief
Oh yes, I need you to nurture
I got to know that you still believe
