

# White Lightning

## Rogue Traders

White lightning  
Your kiss has struck me down  
White lightning  
You had me blown away White lightning  
I think I've got a taste for  
Your bad energy White lightning  
The doctors say it's over  
White lightning  
They think I've gone insane White lightning  
Cause on a stormy night  
I'm, I'm looking for your face I'm looking for your face White lightning  
Your kiss has struck me down  
White lightning  
You had me blown away White lightning  
I think I've got a taste for  
Your bad energy White lightning  
The doctors say it's over  
White lightning  
They think I've gone insane White lightning  
Cause on a stormy night  
I'm, I'm looking for your face I'm looking for your face  
I'm looking for your face Your kiss has struck me down  
You had me blown away  
I think I've got a taste for  
Your bad energy White lightning, white lightning  
I'm looking for your face  
White lightning  
Looking for your face
