# Come Through

## Samantha James

Caught like a rose between two thorns
As you left that day, I felt so torn
Falling down into a hiding place I've found

I was trying to reach a higher sound
Across the black and blue, shined a silver star
Leading me to you and where you are

I won't walk away from your love
I've been searching for so long to feel your touch
And I won't walk away from your truth
So when the time arrives, you can come through

Your silence tells me all I need to know
And in the dark of night I see your glow
Your magic moves me when I need to grow

Walking me into a peaceful flow
Now the golden light I see surrounding me
Nourish the barrows when you came to me

I won't walk away from your love
I've been searching for so long to feel your touch
And I won't walk away from your truth
So when the time arrives, you can come through
(You can come through)
(You can come through)
