## Chicago Underground Trio

You think I clog up the drain  
That it all sounds the same  
You hear the strange sound  
This is what I am  
No apologies You say you are the real  
You say you are the real No one wants this  
Nobody but you  
Incapable of waking up  
Emnity  
Its you or nothing  
Id take a blank wall any day  
No more wasted breath  
No more If its so simple  
Everytime  
I die in your conflicting mind  
If its so simple  
Everytime  
I die in your conflicting mind You say you are the real  
You say you are the real The real coward
