

Witch

Cold

I never knew, she's gone
She's flown away
Everyone said she's not
Your kinda girl I'm so alone, this girl
Is flowin' fear
Everyone said
She fucked up this time It's my brand new world
Today
And it's my brand new world
This way I'll never change, it's wrong
So go away
Everyone said she's not
Your kinda girl I've tasted love, it burns
I'm so afraid
Everyone said
She fucked up this time My brand new world
Today
And it's my brand new world
This way And it's my brand new world
Today
Well, it's all my brand new world
This way I think this fucking witch knows
The way
And everything I feel I think this fucking witch knows
The way
And everything I feel I think this fucking witch knows
The way
And everything I feel I think this fucking witch knows
The way
And everything I feel She knows, she knows, she knows
Fucked up this time My brand new world
Today
And it's my brand new world
This way It's all my, it's all my
It's all my brand new world
Today
