

# Statik

## Jeru the Damaja

Electromagnetic beam, I get charged  
Rhymes I run right through 'em like a big box of Trojan large  
Mc's tried to hang but it's a Brooklyn thang  
Poison slang, poison fang, poison pen, let me begin  
Tryin' to rhyme up in my cipher is gambilin'  
Freestylin' me G, I be buckwilin'  
You can't even challenge a nigga in my position  
Technician, renditions more freaky than Rick James  
Fly like airplanes through all, it remain the same  
My cuts like Freddy Krueger, don't need a German Luger  
But shoot more shit than Stern-ruger  
Dirty rottens comin' through punks cling to their guns  
Don't start none, there won't be none  
'Cuz ahh, fuck around and it'll be tragic  
And I could rock a rhyme with just statik  
Devastating, I gotcha heart  
pulsating  
Ool-age, you need aid, ejaculating  
Thymes like semen, Mc's is scheming  
Tryin' to bag me baby black you must be beemin'  
Feenin', I don't know who gased ya head up  
I'm straight up, for less niggas have got wet up  
I'm on a mission, scrambling my enemies transmission  
When he least expect it, run up in his H-Q  
Hi I.Q., every verse is eked  
Sliver like a snake, still you can't elued  
The neba, but not caneza  
It's the toucha, no gun or God can protect ya  
Neither the scripture, choke like a boa constrictor  
This is my house and I'll evict ya  
Big respect is automatic, black  
And I could rock a rhyme with just statik  
I'll snatch up your girlfriend, her friend  
and their friends  
I got the game and fame, shake out the condoms  
She's a victim, you shouldn't have that mouth dirty rotten  
And for the longest we knew you were plotten  
On the down fall, who stands tall, lick the balls  
I'm not like that, so I smash out pussy walls  
On the low, oh no, on the high  
I get high, praise to the most high  
Tried to battle me, step up and die  
Like the arc of the covenant I electrify  
Petrify, intelligence I glorify, so devils are horrified  
Sprayin' like pesticide, con commit suicide  
Step into my realm and be fried by the statik
