

# Savior

## Disciple

Laughter, that's so part of her  
Is something that we haven't heard  
In such a long, long time  
Replaced with crying long sleepless nights

She needs Your power, Lord  
Pour it all over  
In her darkest hour, Lord  
Pour it all over

'Cause I know You love her more than I could love her  
You've already given more than I could offer  
So I put my hope in You  
'Cause I know You can save her, Jesus, Savior

The problem hidden inside  
Is screaming something's not right  
And I would lay down my world  
To reach out and fix what's broken in her

She needs Your power, Lord  
Pour it all over  
In her darkest hour, Lord  
Pour it all over

'Cause I know You love her more than I could love her  
You've already given more than I could offer  
So I put my hope in You  
'Cause I know You can save her, Jesus, Savior

Deep within every stripe is the hope that I find within You

'Cause I know You love her more than I could love her  
You've already given more than I could offer  
So I put my hope in You, all of my faith in You  
'Cause I know You can save her, Jesus, Savior  
'Cause I know You can save her, Jesus, Savior
