

# Pretty Girls

[Alyson Stoner](#)

Don't get too close to me, I don't love you  
Hearts break so easily, nowhere is safe for ya honey  
Feed off my energy, that's an order  
Stop kissing up to me, I don't reward good behavior Truth is unfair, I am your weakness  
Deadly is fine, try if you dare  
You're already mine Pretty girls learn to work it early  
Pretty girls learn to work it early  
P-p-p-pretty girls learn to work it early Call in my fantasy, operator  
Flat lining into me, pull the plug, see ya later Truth is unfair, I am your weakness  
Deadly is fine, try if you dare  
You're already mine Pretty girls learn to work it early  
Pretty girls learn to work it early  
P-p-p-pretty girls learn to work it early Critically thinkin', you process too slow  
Statistically speakin' I'm outta control  
You already started, one level below  
So why do you wrestle with things that you know Don't hate ya nature, hate the fact that you can't change it  
Minor playin' with the majors  
You can't make it, so you fake it  
Turn up! Stoner, in the eyes of the beholder  
Beauty beckons, game is over  
Leave you with the shoulder, colder  
Boy, why you mad when I already warned ya? Ice hot, won't stop  
Breakin' necks when I step in the spot  
No shot, forfeit  
Lesson learned, class dismissed! Truth is unfair, I am your weakness.  
Deadly is fine, try if you dare.  
You're already mine... Pretty girls learn to work it early  
Pretty girls learn to work it early  
P-p-p-pretty girls learn to work it early Pretty girls, pretty girls,  
Pretty girls learn to work it early  
Pretty girls, pretty girls  
Pretty girls learn to work it early La la la, la la la, la la la
