Sabertooth Tiger

Breathe Owl Breathe

On the other side of town lives a sabertooth tiger
Paints a real good picture, he's an excellent liar
His mouth is full of sand and he's dying to meet you
His mouth is full of sand and he's just dying to meet you
On the other side of town lives a sabertooth tiger
Run away, run away, run away from the beast
Got a bullet in your back and you're shakin' at the knees
Run away, run away, run away from the beast
Got a bullet in your back, run away from the beast
Colder than an ice cube and faster than the fastest cheetah
He's hiding in the kitchen, he's a right brain eater
His mouth is full of sand, he's just dying to meet you
His mouth is full of sand and he's dying to meet you
On the other side of town lives a sabertooth tiger
Run away, run away, run away from the beast
Got a bullet in your back and you're shakin' at the knees
Run away, run away, run away from the beast
Got a bullet in your back, run away from the beast
He's a sabertooth tiger
Run away
(Run away, you better go)
Run away
(Run away, you better go)
Run away
(Run away, you better go)
Run away
(Run away, you better go)
Run away, run away, run away from the beast
Got a bullet in your back and you're shakin' at the knees
Run away, run away, run away from the beast
Got a bullet in your back and you're shakin' at the knees
Run away, run away, run away from the beast
Got a bullet in your back and you're shakin' at the knees
Run away, run away, run away from the beast
Got a bullet in your back, run away from the beast
