Silent Movie

Aaron Zimmer

Surface, take to the breeze
Offhand misdeeds
Prudent motherly eye has passed me by
Build on all of your guards
Hopeless die hard
Crawling low on all fours
Resolve my scores
Vacant taste in your mouth
Deuces, fallout

Silent silhouette
You give, you get
Triggered break to the head
We've been misled
Keep up fast as you can
On false commands
And I don't want to believe
You put me up for release
But I just want some peace
For us
