

Save Yourself

James Morrison

I'm trying to change to make the best for us
But I'm just the same, same as I ever was
Oh, and if you stay with me, honestly it's what I want
But if you stay with me I know I'll hurt you more So won't you save, save yourself
By leaving me now for someone else?
If I'm crying out, don't listen to it
It's only my heart (Save yourself)
It's only my heart So tell me I'm wrong, please won't you change my mind?
This love's so intense sometimes it can leave you blind
Oh, and if you stay with me, honestly it's what I want
But if you stay with me I know I'll hurt you more So won't you save, save yourself
By leaving me now for someone else?
If I'm crying out don't listen to it
It's only my heart (Save yourself)
It's only my heart (Save yourself) And I don't wanna let you go
But I know that it's the right thing to do, baby
And I don't think I'm that strong to say goodbye
I don't wanna see you cry So won't you save, save yourself
By leaving me now for someone else?
If I'm crying out, don't listen to it
It's only my heart (Save yourself)
It's only my heart (Save yourself)
Said, it's only my heart, it's only my heart
Only, only my heart
