

Ghost of Winter

Lillian Axe

As I lie awake
All the memories of my life
Seem to come and fade
Wakes me in the dead of night
Am I slipping away?
Is my memory leaving me?
When it's cold and dark,
Ghost of winter comes to me Look at me
I'm eternal thought
It's a shame but we must part
It's just a dream
It's just a dream Dreams that seem so real
Granny tells me it's o.k.
Won't you cry to sleep
You'll wake up to a brand new day Tears to wake the dead
Tell them it's not all in vain
Since the dawn of man
Think how many felt the rain It's far from what you know
But now I have to go
It's just a dream
It's just a dream In the world, darkness follows me
Hiding out, in places I can't see
I'll tell you one thing
I'll never change my ways
Fly high Solo I can't distinguish reality from dreams
Ghost of winter, won't you hear my silent scream? Ghost of winter, won't you hear my silent scream?
Ghost of winter, return me to my dream Repeat You've showed me one thing
I've never, ever seen
So take me back there
I've got to have my dream Oh, Ghost of Winter
Hear my silent scream
Fly high
