

# Do You Think Of Me

[Mariah Carey](#)

I wonder if you think of me  
Somewhere in the shadows of your mind  
Although our love could never be  
I find I think about you all the time Am I in your fantasies  
The way you always wander into mine  
And are you longing endlessly  
Just like me deep inside When the nights are dark and cold  
Do you think of me, do you think of me  
And when you're lying all alone  
Do you think of me, do you think of me When you feel the touch of another love  
Do you think of me, do you think of me  
Am I the one you're dreaming of  
Do you think of me, do you think of me I picture you embracing me  
We drift away and leave the world behind  
But it's only make believe  
Love can be so unkind When the nights are dark and cold  
Do you think of me, do you think of me  
And when you're lying all alone  
Do you think of me, do you think of me When you feel the touch of another love  
Do you think of me, do you think of me  
Am I the one you're dreaming of  
Do you think of me, do you think of me
