

Live & Learn

No Fuego

Ragged and my brain hurts. I can't believe they're following thier part.
Losing my patience and fading again, not falling from what i believe in.Out here on our own not trying to make
a difference.

Doing what we know. Aint buying what your selling.

Don't need anyone but my friends and i'll say it again,

I wouldn't have it any other way.Dead end job making ends meet, coupons cashed, shoes on my feet.
Live and learn or so it's said, to all my friends i won't forget.Out here on our own not trying to make a
difference.

Doing what we know. Aint buying what your selling.

Don't need anyone but my friends and i'll say it again,

I wouldn't have it any other way.
