

Dust Off Your Dreams

[Lauren Hoffman](#)

I'm in the middle of it
Taking orders from the man
But I'm ready to quit waiting tables if I can
So remember my name when you see it up in lights
You'll know it was the same girl you didn't tip tonight
Look at me when I'm talking
I'm not like the other girls with their heels and stockings
Matching noses, lips and breasts care of some old doc and
Yes, I am better than the rest so why aren't you watching?
Dust off your dreams, emilie
Dust off your dreams, emilie
Drop by my office at six, he says I'll get you in the flicks
Yeah, I'll make you a star, can't you see my fancy car
And my designer clothes, a harmless little kiss
Could get you in the picture shows
Yeah I'm in the middle of it
Taking orders from the man
But I'm ready to quit
Yeah I'm in the middle of it
Taking orders from the man
But I'm ready to quit
