

# Hurricane

## Lifehouse

Turn the page  
Turn the corner  
Open the cage  
Cut the locks  
We're starting over  
I don't wanna live this way We made it through hell and back again  
We were slipping through the cracks, staring at the end  
Oh, and we brave the weather  
Hurricane couldn't take you from me  
I'm holding on tight and I still believe  
Oh, yeah, it just gets better A quiet rage  
A screaming silence is all around  
Let me in  
The world we built is crashing down We made it through hell and back again  
We were slipping through the cracks, staring at the end  
Oh, and we brave the weather  
Hurricane, couldn't take you from me  
I'm holding on tight and I still believe  
Oh, yeah, it just gets better It just gets better  
It just gets better We made it through hell and back again  
We were slipping through the cracks, staring at the end  
Oh, and we brave the weather  
Hurricane couldn't take you from me  
I'm holding on tight and I still believe  
Oh, yeah, it just gets better It just gets better
