

# Island Lost At Sea

**Stellastarr\***

I don't wanna stay, she don't wanna leave  
Pictures of our life; the island lost at sea  
Travel here tonight, and count the stars with me  
Breathing in the sky, oh the moonlight through the leaves  
Now I don't see the ground  
And she don't feel the breeze  
'Cause we were the problem with the island lost at sea  
What makes us wanna change this?
