

Nice (Eric Prydz Radio Too Mix)

Duran Duran

(There is nothing better)
(Than being with you)
(And I'm feeling so nice)(Feeling so nice)Take the beautiful sting of a Scorpio
A careless smile and it begins to snow
And it hurts me to think
That you might never know
That I've got this thing about youIn case you don't understand
There's something else I meant to tell you

CHORUS

There is nothing
Better than being with you
And I'm feeling so nice
There is nowhere
Better than here with you
And it's feeling so niceStaying up with the Moon
And walking home in the rain
Mixed with your perfume
And never twice the same
I got a lot to lose
But everything to gain
When I really think about itYou haven't got a clue
It's all that I can do to hide itCHORUS
Did I already say?
'Cause you make me forget
I might as well be brave and tell yaNow, it hurts me to think that
You might never know
Will it hurt as much being true?
I might as well be brave and tell yaCHORUSThere is nothing
Better than being with you
And I'm feeling so nice
Yeah, I'm feeling
And it's feeling so nice
