

Metal Invasion (Masqueraded 2013)

Freedom Call

Oh spiritus, oh sanctus
Adoramus domine
Te deum laudamus
In memoriam, gloriam Warriors, immortal knights, we walk our way alone
Eternally, we're born to write the sign of victory
Warriors, immortal knights, far away from home
Eternally, we're born to fight, forever riding free And the day has come, time to die
Somewhere far beyond
On the stairway to the sky, on the rainbow soaring high
We are born from the sun In our hands we hold the future as we live so we will die
Carry on to save mankind
Back to back we stand as one until the last crusade is done
We're leaving from the night Call for vengeance, raise your steel
We are the knights on our glory ride
Law defenders, raise your swords
Freedom for us all A hail to the gods of creation
A hail to the king of the world
A hail to the metal invasion
A heavenly kingdom on earth A hail to the gods of creation
A hail to the king of the world
A hail to the metal invasion
A heavenly kingdom on earth Godless odyssey, endless agony
We're heading for eternal life Call for vengeance, raise your steel
We are the knights on our glory ride
Law defenders, raise your swords
Freedom for us all A hail to the gods of creation
A hail to the king of the world
A hail to the metal invasion
A heavenly kingdom on earth A hail to the gods of creation
A hail to the king of the world
A hail to the metal invasion
A heavenly kingdom on earth Call for vengeance, raise your steel
We are the knights on our glory ride
Law defenders, raise your swords
Freedom for us all A hail to the gods of creation
A hail to the king of the world
A hail to the metal invasion
A heavenly kingdom on earth A hail to the gods of creation
A hail to the king of the world

A hail to the metal invasion
A heavenly kingdom on earth
