Realize

Bell Book & Candle

You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realizeAnd it's gettin' dangerous
To see my love away
And it's gettin' dangerous
To wait another dayYou are the one to realize
You are the one to realize
You are the one to realize
You are the one to realizeAnd it's gettin' dangerous
For me to hear you say
And it's gettin' dangerous
To see you go astrayAnd it's killin' me enough
To keep it all away
And it's killin' me enough
To leave and not to stayYou are the one to realize
You are the one to realize
You are the one to realize
You are the one to realizeHi, get your heart out
Come and make me see, oh
Hi, long time runnin' to believe in meYou are the one to realize
You are the one to realize
You are the one to realize
You are the one to realizeYou are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize
Lize, lize, lize, lize
