Save Yourself

Sense Field

Turn out the light just say goodnight, to yourself
May I remind you, when you find you, are all alone is when you
You've got to be strong that's when they call you in the night
He's got your picture in his mind
He's got your number on a paper at his disposal anytimeIs it really true? Could you save yourself
For someone who could love you for you?
So many times we just give it away
To someone who, someone whoYou met in a bar, the back of a car
And for a moment, you felt important but not in your heart
'Cause my self-esteem its been low
Go ahead and count, its been lower than low
I know the feeling of it stealing life out from under me'Cause I want to learn, can you save yourself
For someone who could love you for you
So many times we just give it away
To someone who couldnt even remember your nameDid you save yourself
For someone who loves you for you
And loves me for me, give it away to someone who
Someone who can cherish your name'Cause I want to learn, can you save yourself
For someone who loves you for you
And loves me for me, give it away to someone who
Someone who can cherish your nameCherish your name
