

# The Universe (Mix Cut)

## Lush & Simon

[Armada music]We fight all the seven seas  
Brave hearts and memories  
We won't find remedies  
Where we are right nowIf we don't disappear  
We'll keep falling and falling  
But it's uphill from here  
We'll go all in  
We are the universe (universe, universe...)  
We are the universe(Instrumental break)The beast held us down in chains  
We work hard to break away  
We'll never go back again  
Where we are right nowStep into the line  
Behind the fence  
All the things we've launched, we'll find again  
Operation love will never end  
Yeeaaaaaaah!If we don't disappear  
We'll keep falling and falling  
But it's uphill from here  
We'll go all in  
We are the universe (universe, universe...)  
We are the universe(Instrumental)
