Night After Night

Jeff Beck

Turn it all on, turn it all on
Night after night
Are you talking to me?
Turn it all on, turn it all on
Night after nightNow I hear music in the air
Let the wonderful sounds come around me
Through my fingers, to my ears
Once I was lost but now I found itYou can talk on in your mindYou can turn it all on, turn it all on
Night after night
Are you talking to me?
Turn it all on, turn it all on
Night after nightMelody, she follows me everywhere
I can't help myself, can't resist her
She'll catch me unaware
Takes control when I'm abysmalYou can talk on in your mindYou can turn it all on, turn it all on
Night after night
Are you talking to me?
Turn it all on, turn it all on
Night after nightTake care
Are you talking to me?You can turn it all on, turn it all on
Night after night
Are you talking to me?
Turn it all on, turn it all on
Night after nightYou can turn it all on, turn it all on
Night after night
Turn it all on, turn it all on
Night after nightNight after night
Night after night
Night after nightTurn it all on
Night after night
Turn it all on
Night after night
