

We Belong

Icp (insane Clown Posse)

Little baby bitch ass is crying again
What's the matter?
Feelin' like you don't fit in anywhere? Yeah
What about fittin' that ass in with us
The Mighty Deezy Cizzarn? We'll fuckin' gladly take ya
We take all shape, colors, sizes an' genders
We are the mighty, mystical, mythological
Dark motherfuckin' carnival, byatch I see your feelin' lonely again, you's a motherfucker
Feelin' like you don't belong, like you the only other?
But some of us scrubs got it worse then you
No homies to call on, or crew to belong to Some us said fuck all that bullshit an' dropped out
Some of us stood up to fight but got knocked out
Some of us like to cuss an' don't like ya format
We like the wicked shit, we chose not to ignore that Some of us be comin' out of more then a broken home
Some of us be livin' out of a cars an' carry on
Some of us see the Budget Suits as a real apartment
An' make you take off your shoes on the carpet Some of us are on parole an' can't leave the State
An' some are dead an' gone, my homie, Blaze can relate
An' some cant afford a free phone call
But some of us's equal us all, think about that We belong, we belong, we belong
Our carnival is here
We belong, we belong, we belong
Find us everywhere Some of us own dope cars that fail to exist
Some of us have profiles nobody else fits
An' some ain't got time for the monks in Tibet
Because my own kids are hungry an' there lookin' at me for shit Some of us own drug paraphernalia material
An' some of us have incurable sexual venereals
An' some of us have dreams of bein' a star
An' most won't make it that far, but it's all good Some of us can't afford the coolest shoes
Some us gives a fuck about popularity choose
Some bitches tittie dance 'cause they babies are cryin'
Others say there dancin' for college an' you know that they lyin' Some us are in love with people who ain't ours
Some us don't give up until they're behind bars
An' some us must of been born to take the fall
But some us's equal us all an' I'm with you Right here, we belong
Right here, we belong
Right here, we belong
Our Carnival is here Right here, we belong
Right here, we belong

Right here, we belong
Find us everywhereRight here, we belong
Right here, we belong
Right here, we belong
Our Carnival is hereRight here, we belong
Right here, we belong
Right here, we belong
Find us everywhereForever, don't touch it, it's hot, byatch
Hatchet rydin', forever
