

# Us

## Bryan Lanning

We are long drives  
On windy roads  
Fast by ten  
Camera flashes  
And every time I see you laugh  
I wonder what you're thinking about We're awkward slow dancing  
On stained carpet  
Short walks and long kisses  
And everyone in their right mind  
Thinks we're losing ours  
On my own I always feel like I'm just making my way to you  
All alone your always dreaming the next crazy thing we'll do  
Cause when we're together  
It feels like us  
It feels like us, oh  
And when we're together  
It feels like us  
It feels like us  
It feels like us We are quick stares  
From across the room  
Lip biting  
And thumb war fighting  
And every where we go  
I'm always teasing you  
We are episode binging  
Microwave beeping and [?] and selfie taking  
And every time I say I'm sorry, I  
I feel even closer to you On my own I always feel like I'm just making my way to you  
All alone your always dreaming the next crazy thing we'll do  
Cause when we're together  
It feels like us  
It feels like us, oh  
And when we're together  
It feels like us  
It feels like us  
It feels like us Oh, we've been through ups and downs  
And downs and ups  
Yet here we are  
We've been through trials and trials

And lost and found  
Yet here we are Stories yet to be written  
Songs of our love  
And here we are  
Wonders of old and new  
Another day holding you  
Cause here we are Together  
Together  
Together  
Together Oh, cause when we're together  
It feels like us  
It feels like us  
Cause when we're together  
It feels like us  
It feels like us  
Oh, and when we're together  
It feels like us  
It feels like us  
It feels like us It feels like us
