

When It Rains

Lari White

He'd had some time, he'd been doing fine
He couldn't remember when she'd last crossed his mind
But a storm cloud comes stealin' with that old mournful feelin'
Just like the black night she left him behind
When it rains, when it rains
It pours down memories and thunders her name
And he drowns in the flood of the same old pain
When it rains, when it rains
He starts to cry, he gets to wondering why
And he's sure he can't take one more long lonely night
But his mind keeps on achin' and his heart keeps on breakin'
And he stands shakin' his fist at the sky
When it rains, when it rains
It pours down memories and thunders her name
And he drowns in the flood of the same old pain
When it rains
