Happy Juice

Keri Hilson

[Keri:]If you want me you can find me in the A
[Snoop Dogg:]What you smoking on? Let me get you loose,
Have some Hennessy, mix it with this apple juice
See we can have a ball, that?s where the Heat play,
I know the DJ, and he gone let the beat play
I ain?t forgot about you, you know I care about you,
I been thinkin' bout you, tryin' to get this drink up out you
Now if you buy me one, and then you buy me two,
And now we doin' shots, man I gots to have you
[Keri:]
Chillin on the dance floor,
He pulled up behind me
Feelin on my body,
Oh I think he like me
He was lookin good but,
He was drinkin Moe
He asked me what I'm drinkin', you already know it's
[Chorus:]
Henny and apple juice (with ad libs) [x8]
[Keri:]
Walkin' by the bar, I see this other man,
I guess I gotta stop, he tuggin' on my hand
He was lookin' good, but he was on that goose,
You can't get me loose 'less you got the juice
Everybody look better when you on that juice
If you get me in the zone, I'll dance with you
When you look like this, them boys they wanna come
You ain't even gotta ask what's in my cup
'Cause I'm on that

[Chorus]
Henny and apple juice (with ad libs) [x14]
[Keri:]
It must be the strobe light,
Got you lookin so right
Two step if you feel this,
Just don?t let me spill this
Had a couple drinks and I?m not really thinkin'
You can take me home, but then again,

Everybody look better when you on that juice
If you get me in the zone, I'll dance with you,
When you look like this, them boys they wanna come
You ain't even gotta ask what's in my cup
'Cause I'm on that
[Chorus:]
Henny and apple juice (with ad libs) [x8]
[Stat Quo:]
First of all, I'm Stat,
You can find me in the club
Sippin apple juice and yak
These chicks wanna roll wit a mac
Shawty stay clean, show the crease in my slack
Yes I keep myself on that, one sip, ain't no turnin' back
All the girls look thicker off that liquor, him just don't know how to act
Its obvious, I love that
She standin' still, but it feel like she breakin' it down, gettin' loose
I'm tryin' to get her to the crib so the Stat can come
I wonder if she's really fine, or is it that drink in my cup?
Never mind I'm still sippin...
[Chorus:]Henny and apple juice (with ad libs) [till end]
