

Sing (Digital Dogs Radio Edit)

Wynonna Judd

It's the wind, noise and steam
Beneath your skin, and in your dream
It's who you are, It's how you feel,
Guiding star you're driving with Sing
(Let it take, let it make, never break you now)
Sing
(Let it hold you, make you bold, and never hold you down)
Sing, your heart out It's on the street, neon glare
The hard concrete, the cold night air
It's in your voice,
The way you sound,
Have no choice, but come unwound Sing
(your songs of truth and pain, all the things you can't explain)
Sing
(The way you feel inside, let the music be your guide)
Sing, your heart out Sing it like you hear it,
Like you have no need to fear it now,
Sing it like you know it,
Like you're not afraid to show us how,
Sing from somewhere way down deep,
Sing and make the angels weep,
Sing til you can't sing no more Sing
(Your songs of joy and light, make your mark with all your might)
Sing
(Your songs of hope and fear, sing the songs that sent you here)
Sing, Your heart out Sing
Sing
Sing
Your heart out Sing Sing, your heart out
