Next To Me

Otto Knows

As a kid they told me love was made up
But I used to tell them they were wrong
'Cause the blue-eyed girl that made me wake up
Is still right by me in this song

Stood there counting every heartbeat
Thinking about the words to say
Try not to understand our feeling
And would it ever go away

Now those were the days before you had to go away
Now I'm dancing by myself out in the rain
Now it's getting rather cold, and I just wanted you to know
That if my dreams will ever be, will you come dancing next to me

Next to me
Next to me

You told me we would be forever
But maybe we were just too young
I wonder if you still remember
When we were dancing in the sun

Now those were the days before you had to go away
Now I'm dancing by myself out in the rain
Now it's getting rather cold, and I just wanted you to know
That if my dreams will let me be, will you come dancing next to me

Next to me
Next to me
