

# Valentine

**John Waite**

Inside these moments waiting  
Beneath the windows of  
'The House of Love'  
Like Romeo to Juliet aboveThe lights out on the freeway  
They lead me back to you  
For always and forever now  
I'll be with you'Cause you know that  
I've come here for a reason  
Tell me that there's  
Something to this rhymeListen to your heart  
Tell me what you want now  
But don't let me be denied  
And be my valentine, be mineThe dragonfly at midnight  
The jasmine of your room  
The candle light inside our eyes  
The dawn will come too soonI come to you as nothing now  
But everything I am  
I'm burning for you constantly  
Just let me be your man'Cause you know that  
I've come here for a reason  
Tell me that there's  
Something to this rhymeListen to your heart  
Tell me what you want now  
But don't let me be denied  
And be my valentine be mine, valentine'Cause you know that  
I've come here for a reason  
Tell me that there's  
Something to this rhymeListen to your heart  
And tell me what you want now  
But don't let me be denied  
And be my valentine, be mine  
Be my valentine, be mine
