

S.D.M.F.

Black Label Society

You beat me down and you raped my soul,
You must have thought I was through,
You should have killed me when you had the chance,
I can't describe what's gonna happen to you.
When heads roll,
The more the better,
Strength, determination, merciless, forever
As I lay bleeding in my pool of blood,
I watched you while you laughed,
Retribution in it's purest form,
You should have killed me while you had the chance
(The chance)
When heads roll,
The more the better,
Strength, determination, merciless, forever
