Analog Trash

Ayria

I've got a secret
I've been watching you
I know you're damaged
but I still want you
You're analog trash
when life is digital
But I prefer you
I think you're beautiful
(Chorus:)
Pull back realign
We are flawed by design
Unplug just for fun
Stop before we hurt someone
Standard Uniform
Corporate life has gone too far
Excess Commodity
I want you just for me
This little secret
gives me something to do
My new obsession
to be like you
You're analog trash
when life is digital

But I prefer this
unreplicatable
CHORUS
I want you just for me (x 4)
I've got a secret
I've been watching you
I know you're damaged
but I still want you
You're analog trash
when life is digital
But I prefer you
I think you're beautiful
Come one, it's not what you think
Come on, just come away with me
Come on, there's so much more to this

Come on, that life you will not miss

CHORUS

I want you just for me (x 4)

I want you just for me (x 3)
