

Driving in the Night

Francis Wolf

Driving In The Night

Are You Awake?
Let Me Get To You
Let's Go Driving In The Night

What Did He Say?
Did He Hurt You?
Did He Forget The Thing He Likes

Don't Care About Tomorrow
Don't Bother To Make Things Right
Don't Care If He Doesn't Love You
Let's Go Driving In The Night

I Don't Think I Am Sleeping
The Moon Is Up The Weather's Right
Just You And Me Heading Nowhere
Driving Fast Into The Night

The Music Playing Loud
And We Sing With All Our Might
For The Moment Blind To Sorrow
But Seeing Every Sight
And When The Dawn Light Comes
And The Shadows Start To Hide
We'll Be There
Driving In The Night
