

Shine

Waylon Jennings

My friends never understood
My rough and rowdy ways
They think I'm the only fool
My daddy ever raised But I'm gonna shine, shine
Shine, shine, see me shine
With a little luck and greenback dollar
You're gonna see me shine Here's to the ones who do believe
And disbelieve somehow
I'd give a hundred dollars, Lord
If they could see me now See me shine, shine, shine
Shine, see me shine
With a little luck and greenback dollar
That's gonna make me shine I don't need fancy ladies
Wasting up my time
Give me tender loving care
And the one that's mine Make me shine, shine, shine
Shine, shine, make me shine
With a little luck and greenback dollar
You're gonna see me shine I like living easy
I like being free
Living free and easy brings
Out the best in me Makes me shine, shine shine
Shine, shine, make me shine
With a little luck and greenback dollar
You're gonna see me shine
