Open Heaven

Naomi Raine

Miracle signs and wonders, everywhere I go to show your glorious powers that the world might no your kingdom come, your will be done, just like heaven right here on earth yeah, were under an open heaven and we pull the kingdom down, the kingdom is right here, the kingdom is right now, the blind will see and the lane will dance, the mute will speak, the dead will live again, and we cry, holy, holy spirit come and move through us beneath this open heaven.
