

Reborn

The Living End

Reborn in another place
Vanishing without a trace
Daylight in another time
Disappear without a sign Restore what we had before
Banishing an expired law
Clear view of a fallen dream
The one that we will never see We're waiting a lifetime
To make up your mind
Wait for the right time
For your moment to arrive, to arrive Reborn in another place
Vanishing without a trace
Daylight in another time
Disappear without a sign The first light of the first day
Can light your path along the way
And all you give and all you take
And all you fix and all you break Yeah, yeah yeah We're waiting a lifetime
To make up your mind
Wait for the right time
For your moment to arrive, to arrive Reborn in another place
Vanishing without a trace
Daylight in another time
Disappear without a sign If you hide from yourself
You won't see no one else
If you hide from yourself
You won't see no one else We're waiting a lifetime
To make up your mind
Wait for the right time
For your moment to arrive, to arrive Reborn in another place
Vanishing without a trace
Daylight in another time
Disappear without a sign
Without a sign yeah yeah
