

Can You Remember

Jackson 5

Can you remember when we were babies?
We were always together when we were in kindergarten
But now that you are grown, so girl you left me all alone
And you know I'll never find no one to call my own
So girl, I love you, I love you, don't you know I love you?
I sure do like for you to remember if you can
The time we had and the time we shared
Sitting together in the grass
Can you remember when we were babies?
We were always together and our love had no end
The sunny skies are blue, so girl you know that I love you
And I'll always promise you that this is what I'll do
So girl, I love you, I love you, don't you know I love you?
I sure do like for you to remember if you can
The time we had and the time we shared
Sitting together in the grass
I sure do like for you to remember if you can
The time we had and the time we shared
Sitting together in the grass
I sure do like for you to remember
