Say Goodbye

Cheap Trick

How does it feel to be better?
How does it feel to be on your own?Oh, tell me why did you take the time
And tell me that you came to say goodbyeEverybody wants to laugh when you feel bad
Seems like the only way when the nights won't pass
When you're so sad, if you can't go back
And you can't look downHow does it feel to be better?
How does it feel to be on your own?Oh, tell me why did you take the time
And tell me that you came to say goodbye
GoodbyeEverything comes to mind, it's a breakdown
The way things seem to slide, it's a free fall
When you're so sad, if you can't go back
And you can't look downHow does it feel to be better?
How does it feel to be on your own?Oh, tell me why did you take the time
Walk away, tell those lies
And why did you waste your time
To tell me that you came to say goodbye?
Goodbye, goodbye, goodbye
