

# Mad for It

## Shootyz Groove

Advisory - the following lyrics contain explicit language:

I would hate to grab the mic and sound like the next man  
Or the last man  
That's why, when you're swinging, I swang and swung  
Everthing's already been done So when you see us on stage son, it's all about the fun  
Yeah fun, electric guitars, bass and drums  
Type of illness primo pulls a sample from  
Yeah, I rhyme with twists and turns just like the Guggenheim You'll be left behind, as we're on an incline  
You see this be the third time singing on that line with the dots  
Some people call it funk, rap, rock, or pop  
Others say alternative and label it a fusion  
Clueless but were you true to this Go to get your fill, do what you will  
Me, I'm going at it like it's time to kill  
I'm seeing, what I'm wanting and I'm grabbing it  
You heard it right here, yo, I'm mad for it Go to get your fill, do what you will  
Me, I'm going at it like it's time to kill  
I'm seeing, what I'm wanting and I'm grabbing it  
You heard it right here, yo, I'm mad for it Hold it up, hold it up, hold it up, hold it up  
[Incomprehensible]  
Wind it up, wind it up, wind it up, wind it up  
[Incomprehensible] to the future We getting blessed yo, so let your stress go  
Why you wanna carry such a heavy cargo?  
We are those Santos and Diablos, prepared to flex so  
What do you want to know? Yo I can serve your spirit on a platter pronto  
Quick fast, crash, I been born to blast  
Many praise the calf of gold, sold their soul  
And so they feel the wrath, you do the math Some walk upon a crooked path, now look at that  
Trying to stay strapped and packed like Arafat  
But matter fact, they never knew the science  
When I hop up on the microphone I do it like a giant Go to get your fill do what you will  
Me, I going at it like it's time to kill  
I'm seeing what I'm wanting, and I'm grabbing it  
You heard it right here, yo, I'm mad for it Go get your fill do what you will

Me I'm going at it no time to chill  
I'm seeing what I'm wanting and I'm grabbing it  
You heard it right here, yo, I'm mad for it  
What I represent is MCs going mad  
What I represent is MCs going mad  
What I represent is MCs going mad
