Disgrace

Another Idiot

Pitch black!
All i can see lately
Stand back!
Cause no one's gonna save me
You see when hope is out
Whats to complain about?
Welcome to land out of line

Well there's a highway to hell
There's a stairway to heaven
I'm shit-scared of heights so i'll stay in the left lane
The useless is used up
The hopeless is our hope
Well cry me a fucking river
Cause we're fine!

Cause I'm a disgrace
it makes me feel alive!
there's no pride left in life, dont you try, make it out alive
Yeah I'm a disgrace
Cross the street and shine!
We're heading straight for the gutter
Going down going under, but remember
We're going loud and together!

So take your conscience
And throw it all over the edge
Swallow your pride, just to feel how good it tastes
Say your grace for the long lost future
Whats the point of it all?
And we will all go to hell but at least go together
I'm born in september, I'm dead by november
You do these things right, but can always do better
Does that make you feel like you're fine?

Cause I'm a disgrace
it makes me feel alive!
there's no pride left in life, dont you try, make it out alive
Cause I'm a disgrace
Cross the street and shine!

We're heading straight for the gutter
Going down going under, but remember
We're going loud and together!

Cause I'm a disgrace
it makes me feel alive!
there's no pride left in life, dont you try, make it out alive
Yeah I'm a disgrace
Cross the street and shine!
We're heading straight for the gutter
Going down going under, but remember
We're going loud and together!
