These Days

Josh Heinrichs

This is the predicament Im in these days
Sometimes it gets real tough but we find a way
Cause I needed your love before yesterday
But for now if you make me smile I guess I'll stay

Verse
Cause The feeling I get when Im loving you girl
Dont walk out that door, cause I'll miss you more
dont wanna see you cry no because I love you
and thats all i got to say
Cause I tell you I love you but then you say it's too late
can't handle rejection, dont wanna hear you say
cause I need ya, i wanna please ya
but if your gonna let me go, then you gotta let me know but ok
cause I dont wanna hear you say thats the only way
I miss it when you used to kiss me,
i miss the way you used to hug me
i miss the way you used to say, you told me that you loved me

Falling in and out of love with you
baby is what I hate to do
cant stand this pain no more
cant stand to see you walking out that door
baby i need your love everyday
and I never wanna see our situation change
but it gets so hard to be with you
when we are just feeling both oh so used

Chorus
Cause this is the predicament Im in these days
Falling in and out of love with you
Sometimes it gets real tough but we find a way
baby is what I hate to do
Cause this is the predicament Im in these days
Falling in and out of love with you
Sometimes it gets real tough but we find a way

Bridge
