# My dear

## Stroganoff

My dear
My dear
My my
My dear
My my
Baby
Come closer
You don't have to be afraid
I'll be like the gentle evenin' rain
On your window pain
Lay your head down
Enjoy the candlelight
Come and take a trip with me
If you'll let yourself be free
You'll fly away
To a place where the touch equals ecstasy
Stay with me tonight
Will you fly away?
Will you fly away with me?
My dear
I don't want to be the one
Don't want to be the one to hurt you
My dear
I just wanna be the one
Just wanna be the one to love you
My dear
Honey
You feel so good
Your skin's as soft as virgin silk
I melt each time I get a whiff
Of your sweet perfume
Lay me down
Let's enjoy the candlelight
No need for us to fantasize
Don't hold your feelings deep inside
Just fly away
To a place where touch equals ecstasy
Stay with me tonight
Will you fly away?

Will you fly away with me?
My dear
I don't want to be the one
Don't want to be the one to hurt you
My dear
I just wanna be the one
Just wanna be the one to love you
My dear
I just wanna be the one
Just wanna be the one to love you
My dear
I just wanna be the one
Just wanna be the one to love you
My dear
I just wanna be the one
Just wanna be the one to love you
My dear
