

Fever

[Azure Ray](#)

Fever i know you've come to take my love

Go away

Fever i know your face just like a dove

Fly away

Fever turn the lights out

Take a different road

Let us be

Fever I know you've come

To take my love

Go away

Fever I know in god

I shouldn't trust

He's so far away

Fever turn the lights out

Take a different road

Let us be

Fever take a different route

Travel a different road

Let us be

Fever I know you've come

To take my love

Go away fly away go away
